

WHAT MAKES XZILON DIFFERENT?

Xzilon's Windshield+ Glass Modifier comes from a Dow Corning Glass Protection Technology used and *developed for the Aerospace industry*. It is based on a modified sand molecule with a silane bonding agent, which is as *harmless to the environment as sand* can be. It can be compared to super glue with a covalent bond. In fact, the technology used is a distant cousin of super glue. It physically bonds to the surface, creating a durable anti-scratch, anti-chip barrier.

Xzilon's Windshield+ Glass Modifier technology is a *sophisticated chemistry compound* that binds to glass on a molecular level, creating a smooth surface that *repels water, ice, snow, dust, and grime!* The smooth nature of the sealant also reduces night glare and the distracting halo effect visible around street lights at night. *Most importantly*, Xzilon's Windshield+ Glass Modifier also strengthens glass, which provides protection from cracks, scratches, and pitting.

CLAIMS SUBMITTED ONLINE

Service, when needed, is just a few clicks away 24/7 at www.xzilon.com. Claims can also be made by calling 877-808-4649, emailing claims@xziloninc.com or scanning the QR code below!

WHY XZILON?

Today's automotive glass is lighter and more porous to help improve gas mileage. The tradeoff is a *softer, weaker glass* which is more susceptible to road and environmental hazards. These hazards can *chip & scar your windshield*, thus reducing visibility. The solution is to add Xzilon's Windshield+ Glass Modifier to the exterior surface of the glass, which *enhances the strength, durability, and clarity* of your windshield.

This same technology is used in today's next-generation mobile devices allowing *thinner, safer, clearer, and more durable* glass that's harder to scratch. In fact, recent testing has demonstrated the ability of Windshield+ to reduce surface abrasion by over 50%.

STRONGER, CLEARER, AND MORE DURABLE

IS XZILON SAFE?

In use, Xzilon's Windshield+ Glass Modifier is safe for adults, children, and pets. Water-based and made with Hypergreen technology, it is safe and easy to apply, and does not rub or wear from the surface.

WINDSHIELD+ PRODUCT HIGHLIGHTS

- ▶ Aviation Grade
- ▶ Improves Visibility
- ▶ Covalently Bonds
- ▶ Durable Protection
- ▶ Increases Glass Strength
- ▶ Reduces Night Blindness
- ▶ Repels Rain, Dirt, & Grime
- ▶ Reduces Chips and Scratches
- ▶ Long-Lasting, Does Not Rub Off
