# WHAT MAKES XZILON DIFFERENT?

## A NEW ERA OF PROTECTION

Traditional rust protection relies on messy sprays that are harmful to the environment or electronic modules that need to be hard-installed or plugged into your vehicle.

Xzilon's Liquid Corrosion Protection is a new approach to vehicle rust and corrosion prevention. Xzilon's proprietary ceramic polymer is specifically formulated to combat corrosion and both hardens and strengthens the clear coat of your vehicle. With it applied, your vehicle is protected against both cosmetic rust and rust-through perforation.

Protecting your vehicle from the outside-in keeps your vehicle looking newer for longer and provides rust and corrosion coverage where the manufacturer won't.

## WHY DO I NEED RUST PROTECTION?

When the metal under the painted surface of the vehicle is exposed to the outside environment, it becomes susceptible to the formation of rust. Regions specifically affected by high humidity and salted roads are at even greater risk for destructive corrosion that can severely diminish the value and appearance of your vehicle. Protect your vehicle today with Xzilon's Liquid Corrosion Protection.

# CERAMIC RUST PROTECTION

## 10 YEARS

OF COVERAGE  
ON NEW VEHICLES  
(Current model year + 2)

- » \$0 deductible
- » \$5000 aggregate limit
- » Surface corrosion perforation
- » Surface corrosion protection

## 7 YEARS
